

Services for Home Consumers

Last Updated Monday, 28 April 2008

Techbridge Inc helps home technology and home office users to install, understand and maintain the technology products infused into their daily lives by carefully selecting and pairing emerging technology products with the intended use. We assist our customers in managing the maintenance of their purchase by providing them with quality support and service. Our home or home office solutions are designed to minimize the headaches and challenges that can sometimes be associated with new technology, and maximize the enjoyment and/or usefulness of your investments.

"Techbridge - Bridging the Gap between Life and Technology"™

Our friendly and knowledgeable staff can support and deliver solutions and services in all of the following consumer electronics and technology areas:

- IT and Electronics Sales, Parts, Components
- Support and Repair Services
- Data Backup, Recovery and Drive Repair
- Hosting and Website Development Services
- Wireless Network Installation
- Home Network Integration and Automation
- PC and Identity Security
- Virus Elimination and Recovery
- Multimedia Production
