About Us

TechBridge Incorporated provides our clients with the right products and services that bridge gaps between business goals and technology implementation. Our consultants have sold, serviced, supported, installed and repaired a vast array of computing solutions and applications for hundreds of local businesses, major commercial enterprises, and local, state and federal government clients since 1988.

Founded in 2005, Techbridge is a Central Pennsylvania-based S-Corporation and a renowned provider of Information Technology Services and Solutions, Network Security Solutions and Systems Integration, Development and eCommerce Services to commercial and government clients throughout Pennsylvania, Maryland, New Jersey, New York, Rhode Island and Delaware.

Techbridge is also an e-Commerce enabled supplier of information technology (IT) hardware and software products for home, business and government technology users and a partner of several industry-leading manufacturers, including Western Digital, Seagate and Lenovo. We specialize in added-value delivery of customized technology solutions that assist our customers in harnessing the power of information at their finger tips. Our highly skilled consultants' have a single focus, and that is to add real value to the products we provide, thus bridging the gap between their intended purpose and implementation. Our staff will ensure that all the pieces to the puzzle work together seamlessly.

Our expertise enables our friendly staff to provide our valued customers with a wide range of IT products, solutions and value-added services designed to their specific needs. Although Techbridge is relatively new to the internet sales marketplace, we are very experienced in technology sales and service. We know that our customer's satisfaction will be our bread and butter and we intend to make every effort to ensure that our experience together is a pleasant one.

Commitment to Our Customers

At Techbridge Incorporated, our entire purpose and mission is to provide our valued customers with the absolute best customer experience possible. As a team, we will work with our customers to fully understand their specific business needs, goals and processes, enabling us to provide tailored information technology solutions that are delivered and executed to their complete satisfaction.
